Mini-Quiz 6

BIOL 4350/6350

Feb. 28, 2019

1 How would you expect a tree in an old-growth forest to acclimate to elevated CO₂?

2 Illustrate the difference in the short-term and long-term response to elevated CO₂ between C₃ and C₄ species?

- 3** Imagine your favorite ecosystem. How would you expect the plant community and/or ecosystem as a whole to differ with elevated CO₂ and why?
