Mini-Quiz 6

BIOL 4350/6350

Feb. 28, 2019

1 How would you expect a tree in an old-growth forest to acclimate to elevated CO₂?

2 Would you expect elevated CO₂ to change the competition between C₃ and C₄ species? Why or why not?

- 3** Imagine your favorite ecosystem. Briefly describe it and use a flow chart to explain how would you expect the plant community and/or ecosystem as a whole to differ with elevated CO₂ and why? For example: X → Y → Z.
